

UML Class Diagram – LunchBox and LunchBag

Class: LunchBox

```
-----  
- length: double  
- width: double  
- height: double  
- waterBottle: WaterBottle  
-----  
+ LunchBox()  
+ LunchBox(length: double, width: double, height: double, waterBottle: WaterBottle)  
+ getLength(): double  
+ setLength(length: double): void  
+ getWidth(): double  
+ setWidth(width: double): void  
+ getHeight(): double  
+ setHeight(height: double): void  
+ getWaterBottle(): WaterBottle  
+ setWaterBottle(waterBottle: WaterBottle): void
```

Class: LunchBag

```
-----  
- length: double  
- width: double  
- height: double  
- waterBottle: WaterBottle  
-----  
+ LunchBag()  
+ LunchBag(length: double, width: double, height: double, waterBottle: WaterBottle)  
+ getLength(): double  
+ setLength(length: double): void  
+ getWidth(): double  
+ setWidth(width: double): void  
+ getHeight(): double  
+ setHeight(height: double): void  
+ getWaterBottle(): WaterBottle  
+ setWaterBottle(waterBottle: WaterBottle): void
```

Relationship:

LunchBox ---- has-a ----> WaterBottle

LunchBag ---- has-a ----> WaterBottle
